

Help us to respect
the environment

Using the envelope that
you can find in the tourist
kit, and collaborating to
the system of collecting
waste in our territory you
will help us to clean our
beautiful landscape

THANK YOU

AND

GOOD HOLIDAYS

MUNICIPALITIES UNION OF MONTIFERRU SINIS

THE TOURIST KIT

(Envelopes for the separate
collection waste)

USE INSTRUCTIONS

Downloadable by the website
www.unionemontiferrusinis.it

The envelopes for the separate collection of waste in the Municipalities Union of Montiferru Sinis territory.

The Municipalities Union of Montiferru Sinis, in order to safeguard the extraordinary beauty of its territory, offers to the tourists a separate collection kit containing no. 4 envelopes to be used for the delivery of urban waste, produced in one of the municipalities of the Union.

These envelopes are in compliance with the law and can be used for the separation of:

- 1) Dry non-recyclable,
- 2) Plastic packaging,
- 3) Organic and / or humid waste,
- 4) Paper and cardboard.

For the other typologies, please download the practical guide and the calendars you will find on the website

www.unionemontiferrusinis.it .

Dry non recyclable:

The envelope of the dry non recyclable waste is yellow

It includes: charcoal, oily paper , plasticized paper, toothpaste tubes , cosmetics, small toys, diapers and absorbents, ceramic objects , porcelain and terracotta objects , audio and video cassettes, plastic cutlery, cotton clay, cigarette filters , Toothbrush, tinfoil etc ... (see the practical guide on the website above indicated).

Be sure to close the envelope before take it out of the house for the withdrawal.

Plastic packaging:

Only the plastic packaging should be inserted in the plastic envelope (**blue color**):

Bottles of water and soft drinks should preferably be crushed and closed with the cap in order to reduce occupied space. Bottles of detergents, shampoo and bath foam, liquid containers in general, food pans, yogurt containers, eggs containers, shopping bags ... etc. (See the practical guide on the website above indicated).

Attention : from 2015, plastic dishes and plastic glasses can be put in the plastic envelop only cleaned by leftovers

If there are doubts , put it in the yellow envelope (of the dry non recyclable waste) as indicated in the practical guide on the website

Organic and/or humid waste:

The bags for the organic must be biodegradable, compostable and compliant with the law UNI EN 13432, so that organic waste can be started composting.

In them you can put food leftovers, spoiled foods, egg shells, old bread, vegetable and fruit scraps, unclean paper towels, coffee grounds and spilled ash.

Paper and cardboard:

You can use the paper envelope to insert newspapers, magazines, sheets and notebooks, taking care to eliminate everything which is not paper (eg plastic). The containers in tetra pack like the brick of fruit juice and the brick of milk juice should only be inserted after they have been crushed and removed any plastic caps.
